

Using the Communication Web Modules

Welcome to Missouri Deafblind Technical Assistance Project's Communication Strategies for Persons with Deafblindness.

These are some directions for you to use the web modules. If you need additional assistance or have additional questions feel free to contact Susan Bonner, Project Coordinator at 314-776-4320 ext. 3255 or sbonner@msb.k12.mo.us. The purpose of the web modules is to provide persons providing educational services to students with combined hearing and vision losses, some basic information to help them understand the student's communication and how to incorporate this information into the student's school day.

- 1. The modules include both a PowerPoint presentation and an accompanying workbook. Please print the workbook, as this will become a working document for you as you complete your profile of your student.***
- 2. Complete each module and the associated assignments prior to starting the next module.***
- 3. You may submit your completed profile for review. Feedback will be offered and you will be provided with a Certificate of Completion of ten contact hours. A copy of the profile may be mailed to Susan Bonner, Project Coordinator, Missouri School for the Blind, 3815 Magnolia, St. Louis, Missouri 63110 or faxed to 314-773-3762.***

"Alone we can do so little, together we can do so much."
